

ASSEMBLY INSTRUCTION

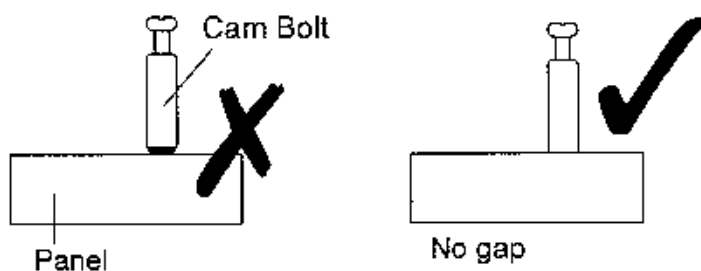

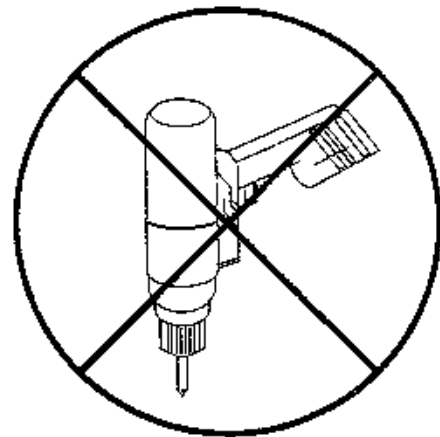

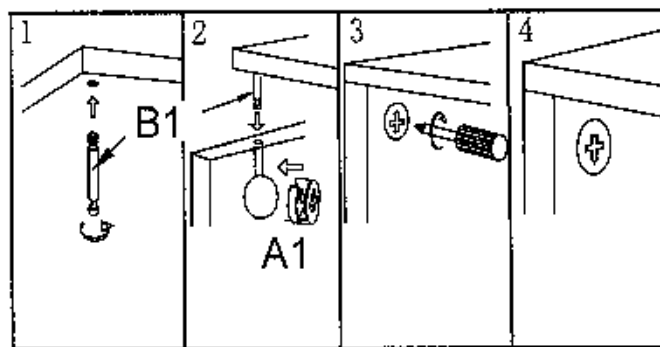

Cabinet

Assembly instructions and
Warranty information

The maximum recommended weight allowance is 33 lbs (15 kg) for each surface.

Installation of Cam Lock&Cam Bolt:

Screw the Cam Bolt into hole. To set Cam Lock correctly, ensure the arrow on the cam head points to the hole of the Cam Bolt it is locking. Lock Cam by turning cam head one third clockwise with screwdriver, Do not overtighten. Please don't use an Electric Screwdriver to assemble the unit.

This assembly step requires two people to operate. One person assembles the thin plates, while putting them into the card slot, and slowly bending the other thin plates into the card slot. The other person holds the wooden frame and grasps the thin plates that have been inserted into the slot to prevent them from being pulled out when installing the thin plates.
