Kathleen Buzzacott is an artist, poet, designer and entrepreneur, of Pitjantjatjara Scottish and English heritage, born in Alice Springs Central Australia. Kathleen's fine Central Desert Dot Painting style celebrates her discovery and connection to her indigenous heritage.

Echidnas feature widely in Aboriginal myths and art. As well as being the subject of myth, the echidna was highly prized as food by Aboriginal people. I always say they are way too cute to be food! My mum loves them.
