Assembly Tips

1. For larger items, please ensure that you have sufficient space and people (as indicated on page 1) to assemble your product safely.
2. We recommend that, where possible, all items are assembled near to the area in which they will be placed in use, to avoid moving the product unnecessarily once assembled.
3. For the protection of your furniture, we recommend that the product is placed on a protected surface during assembly to prevent any damage.
4. During assembly please take care not to over-tighten any fittings, as this may damage the product.
5. Always place the product on a flat, steady and stable surface.
6. Do not stand on the product. Do not use the product as a stepladder.
7. This product is intended for indoor, household use only as it is non industrial product.
8. Use of power tools is NOT recommended for assembling this product.
9. Due to the painted finish of this product, when first opening the carton and assembling, the smell of paint may be noticeable. If there is any smell of paint it will dissipate over a short period of time. The paint is non-toxic and contains no lead. Please contact the retailer you purchased this item from if you have any concerns.
10. Please use caution and care when lifting the product to avoid personal injury and/or damage.

Care and Maintenance of your Furniture

- ☒ Please periodically check all fittings and re-tighten as necessary.
- ☒ To clean your item, please use a damp cloth and wipe clean. Never use harsh chemicals or strong detergents as this could damage the finish of your product.
- ☒ Never allow any kind of liquid to remain on your furniture. Absorption can cause wood to warp or finishes to de-laminate.
- ☒ Avoid placing sharp objects on the surface as this may scratch the surface. It is recommended to use trivets or coasters under flowerpots, vases, cups etc to avoid damage to your item.
- ☒ Please do not place hot/cold items (eg. Hot drinks) directly on to the surface.

Tips before you start:

QUICKFIT

Tighten quickfit until shoulder is flush with panel. Do not overtighten or undertighten.

CAM LOCK

When fitting cam lock, ensure starting position is correct before you insert connecting quickfit.

Quickfit head should be in the centre of the cam lock when the two panels are joined.
Cam lock should be inserted before quickfit.

Turn cam lock clockwise to tighten.

Drawer Installation Guide

- Before you insert the drawers into the frame, please ensure that the ball bearing sliders (on the assembled unit) have been placed to the front of the main unit. If the bearings are in the middle of the slider it will be difficult to install the drawers correctly.

- Insert the drawer into the assembled frame as show below. Keep each side of the drawer straight and aligned correctly to the sliders on the assembled frame.

- Gently start to push the drawer into position, the drawer sliders should start to connect with the sliders on the assembled frame. Once connected apply even pressure to each side and gently push the drawer into place.
- The ball bearings should catch the drawer sliders, once they do you may find that you need to apply more pressure, this is perfectly normal as long as you are keeping the drawers straight, push the drawers 100% of the way in. Finally slide drawer in and out a few times to ensure the ball bearings are running smoothly in the slider. Installation is complete.
- At any stage throughout the install process you feel like the drawers are not evenly sliding into the assembled frame, please remove the drawers before they start to attach to the bearing slider and start the install steps again.

NOTE:

⚠ CAUTION

When removing the drawer, be careful to tip up the safety release tab on the left side, and tip it down on the right side to remove the drawer from the body as shown.
