Important :

Please read these instructions carefully before use and keep for future reference.

- This product is intended for domestic use only and is not designed for commercial use.
- DO NOT assembly / use this item if any components are missing or damaged. Please contact the retailer straight away.
- DO NOT attempt to modify your item as this will void your warranty. Please call the retailer for required parts.
- Assembly to be carried out by a competent adult only.
- During assembly children should be kept away from the product due to possible risk of injury.

Please refer to separate Warranty Certificate for full warranty details and information.

Tips before you start :

- Please check that all parts are present before you start the assembly of your furniture. Please do not start to build your item if any parts are damaged as this may void your warranty. Please contact the retailer immediately so they can advise what you should do.
- For ease and speed of assembly, we recommend that before you commence each step of the assembly, that you identify all the parts required for that step.

Assembly Tips:

1. For larger items, please ensure that you have sufficient space and people (as indicated on page 1) to assembly your product safely.
2. We recommend that, where possible, all items are assembled near to the area in which they will be placed in use, to avoid moving the product unnecessarily once assembled.
3. For the protection of your furniture, we recommend that the product is placed on a protected surface during assembly to prevent any damage.
4. During assembly please take care not to over-tighten any fittings, as this may damage the product.
5. Always place the product on a flat, steady and stable surface.
6. Do not stand on the product. Do not use the product as a stepladder.
7. This product is intended for indoor, household use only as it is non industrial product.
8. Use of power tools is NOT recommended for assembling this product as over-tightening may occur and damage the product.
9. Due to the laminated finish of this item and the materials used to construct it, when first opening the carton and assembling a slight smell may be noticeable. This will dissipate over a short period of time. Please contact the retailer you purchased this item from if you have any concerns.
10. Please use caution and care when lifting the product to avoid personal injury and / or damage.

Care and Maintenance of your Furniture

- ☒ Please periodically check all fittings and re-tighten as necessary.
- ☒ To clean your item, please use a damp cloth and wipe clean. Never use harsh chemicals or strong detergents as this could damage the finish of your product.
- ☒ Never allow any kind of liquid to remain on your furniture. Absorption can cause wood to warp or finishes to de-laminate.
- ☒ Please do not place hot / cold item (e.g. hot drinks) directly on to the surface.
- ☒ Do not pull or drag your item. Ensure its evenly supported and lifted while moving it.
- ☒ Avoid placing sharp objects on the surface as this may scratch the surface. It is recommended to use trivets or coasters under flowerpots, vases and cups etc to avoid damage to your item.

Hinge Installation Guideline

Image shows underside of hinge

STEP 1 - The hinge will arrive connected to the hinge plate.

Take note of the placement of this hinge, this is how it needs to be assembled when you align the door with the hinge plate during building process. (circle)

Image shows front side

STEP 2 - Take a part the hinges as shown in the Instructions so that you end up with the door hinge and hinge plate.

Image shows underside of hinge. You can see the middle pin is locked into its position. (circle)

STEP 3 - During installation, when the step requires you to attach the door to the hinge plate on the product please ensure the hinge slides over the hinge plate so the middle pin (circle) slides into the designed slot and locks the hinge in place.

It may be hard to tell if it is in place correctly due to the door being in the way. You could try and gently pull the hinge off the plate. If its locked in it wont move freely.

Image shows underside of hinge. You can see the middle pin clearly. (circle)

STEP 4 - Once you are confident the middle pin is locked into position you can use the screw provided to join the door hinge and the hinge plate together and start the alignment process.

Please refer to the instruction for guidelines on how to adjust the hinges so that your doors align nicely.

Image shows underside of hinge. You can see the middle pin is not locked into its position. (circle)

As per the image below the door hinge should sit nice and flat onto the hinge plate. If its raised (as shown below) then it hasn't correctly locked into position.

STEP 9

Attach the handle (G) to door panel (8) as shown. Then attach the door panel (8) to side panel (2) as shown.

NOTE :

Before you complete Step 8, it's best to tighten the "hinge plates" on panel 2 to ensure they are pushed in as far as they can, so when the door is attached they won't come loose.

To successfully do this, please place your hand on the outside of the panel 2 so that you can push your hand inward against the panel as you screw in the hinge plate. Please make sure the screw grabs the side panel the entire way. It can take a bit of pressure to successfully do this.

You should notice that the hinge plate on these panel 2 will then sit flush with the panels and there should be no gaps between the plate and the side panel.

HOW TO ADJUST YOUR HINGES AND ALIGN THE DOORS

Follow the adjustments and make sure the middle pin is correctly installed as per previous instructions. If the middle pin isn't correctly installed then this adjustment will not work correctly.

If you tighten/loosen this screw it will adjust the doors to the left/right.

This step usually takes small adjustments and then closing doors to see if the gaps have evened out. Sometimes just half a turn of the screw can make a big impact to the gap.

The hinges are correctly installed and in position once you have a nice straight gap down the sides of the cupboard between the door and the side of the cupboard cavity.

HAMPTON 1 SHELF 1 DOOR BEDSIDE TABLE

ITEM CODE: 8315-WHT

This adjustment is used if your doors have a big gap at the top or the bottom, or if one door sits straight but is lower than the other door.

STEP 1
Please loosen the screw to adjust the door.

STEP 2
Adjust the door.

STEP 3
After adjust, tighten the screw.

This adjustment is used if your doors are TOO CLOSE to the main cavity. You can loosen the screw and then move the door hinge closer or further out depending on the outcome you want to achieve

STEP 1
Please loosen the screw to adjust the door.

STEP 2
Adjust the door.

STEP 3
After adjust, tighten the screw.
