1. Thickness of the mattress should not exceed the 'maximum mattress height' mark on the size rail of the upper bed.
2. A bunk bed is not to be placed near a ceiling fan unless the distance between the closest points on the ceiling fan bunk bed is at least 2 metres.
3. Children should be discouraged from playing on top of this bunk bed.
4. The bunk bed should be checked periodically by the owner to ensure that the guardrail, ladder, and other components are maintained in the correct position and state of repair and that all connectors are tight.
5. Prohibit more than one person on the upper bed.
