ASSEMBLY STEPS

1

Magnetic door catch installation on door base board and top panel

2

Bottom board and frames assembly

3

Door base board assembly

4

Shelf panels assembly

5

Back panels assembly

6

Door panel hardware installation

7

Top panel assembly

8

Insert the metal rod connectors from the door panels into the top panel and the door base board.

Door panels assembly

9

Optional

Wall-locked installation

Mark the hole position and drill a hole in the wall

Beam bars assembly

ATTENTION

- The shelf panels can be adjusted for height by removing and re-installing them at the desired height.
- The maximum weight capacity for each shelf panel is 10kg.
- Assembly must be done by adults. Check the product regularly for any damage. Keep the product away from hazardous contents.
- Do not expose the bamboo boards to extremely dry or humid environments as it is prone to cracks.

CARE AND MAINTENANCE OF BAMBOO FURNITURE

GENERAL

- Periodically check all screws, bolts and joints connections and tighten them if necessary.
- Periodically check for any damage and deteriorated parts and components and seek repairs or replacements if needed.
- Do not allow any liquids to remain on the furniture as this may cause stains and allow the liquid to be absorbed into the finishes and materials.
- In some cases, this may also cause warping and/or cracking of the materials and finishes. Use coasters and placemats for all food and beverages.
- Do not place hot items, such as dishes, pots and cups, directly on the furniture. Use coasters and placemats for all food and beverages.
- Keep sharp and pointed objects away from furniture to avoid damaging the surface and finish.
- Do not place the furniture near hot objects, heating vents or heating equipment.
- Do not place the furniture in moist areas such as bathrooms to prevent water damage.

CLEANING AND CARE

- Dust the furniture regularly using a soft cloth or microfibre duster to prevent dust build-up. Consider using a vacuum cleaner to thoroughly clean it.
- Only wipe and clean with a soft, damp cloth with a mild cleaning detergent. Use a toothbrush to clean hard-to-reach spots.
- Allow the washed furniture to dry in the shade rather than in the sun which can dry out bamboo too quickly.
- Do not use a jet wash as this can damage the material.
- Do not use chemicals with bamboo furniture as it may cause unnecessary staining.
- If there are stains or liquid spills, clean it immediately to reduce the likelihood of the stain settling in and becoming permanent.

ENVIRONMENTAL

- Do not expose the furniture to direct sunlight. Use curtains and blinds to shield the furniture if direct sunlight is unavoidable.
- In dry or hot indoor conditions, wipe the furniture with a cool, damp sponge often to prevent cracking.
- Bamboo furniture is prone to damage and fade with prolonged exposure to extremely high or low humidity conditions. Do not place them in such extreme conditions.
- Bamboo is porous and susceptible to moulding where placed around moist areas. As an optional protection for bamboo furniture, apply a bamboo sealant/varnish on it for durable protection against scratches, water, UV rays and other weather elements.

HANDLING

- Do not drag, push or pull furniture when moving them. Lift them up to avoid damage to the furniture legs and scratches on floors.
- Do not sit on wet bamboo furniture as this will cause it to stretch or sag.
- Avoid sitting or standing on armrests or use the furniture as a stepping stool for safety reasons.
- Do not exceed the recommended weight capacities of the furniture specified.
- Do not use the furniture for any purpose other than what is intended for.
