

ASSEMBLY INSTRUCTIONS

LV41 TV4113LUCO-CLB/BK

Thank you for your purchase.

Before assembly, please read these instructions.

Please read all warnings.

Store this instruction manual for future reference.

Product Size	Approximately 398 Width x 1798 Length x 380 Height (MM)		
Main Materials	Particle Board		
Weight Capacity	Top insert: About 30KG, Shelf insert: About 10KG, ※ These are measured figures, not guaranteed figures.		
Time To Assembly	About 60 Minutes	Update Date	4/10/2022

Assembly Warning

- Assembling with 2 or more people is recommended.
- Please assemble at a spacious and flat place
- Please place blankets or cardboard so floor or walls will not be scratched
- Please ventilate the area if there is a strong glue odor after opening the product
- Please follow assembly instructions
- Please have the below tools ready before assembling
 - Screwdriver, Scissors or Blade Box cutter, Rubber hammer, Drill

Hardware

Before assembly, inspect unit for missing parts. Be sure that children do not accidentally swallow these parts.

※ Same sized parts are in a bag. Please check the size of the screws.

A Minifix
M5x24MM 8 Pcs

B Minifix Casing 8 Pcs

C Wood Dowel
M8x30MM 20 Pcs

D Iron Shelf Support 8 Pcs

E 338 Sliding Roller 4 Sets
Screw M3x12MM 32 Pcs

F Drawer Slide 12" 1 Set
Screw M3.5x12MM 12 Pcs

G Aluminium M Rail 1 Pc

H Rubber
Round Cup 3 Pcs

I Screw
M6x50MM 8 Pcs

J Screw
M4x65MM 8 Pcs

K Screw
M4x38MM 8 Pcs

L Screw M3.5x16MM 4 Pcs

M L Shape Pvc Leg 4 Pcs
Screw M3.5x16MM 8 Pcs

N Rectangle Leg 2 Pcs
Screw M3.5x16MM 4 Pcs

O Allen Key 1 Pc

P Stopper Insert 4 Pcs

Assembly Information

▪ Assemble screws

1. Screw up to half point to make sure all spots are lined up

2. Tighten all screws

▪ Assemble Wood Dowels

1. Insert dowels into holes tightly

2. Attach the insert holes along with dowels

▪ Assemble Minifix

1. Screw Up Minifix M5X24MM into holes. Tighten all Minifix.

3. Insert Minifix M5X24mm and Minifix Casing together into the slot

2. Insert Minifix Casing into holes. Set the arrow of the screw up toward the nut slot.

4. Tighten the cam lock screw
※Use Allen Key or Screwdriver

Assembly Step

Failure to follow these directions could cause poor strength or stability.
Insert screws loose to line up with slots then tighten up each screw.

Safety

Please read the below warnings before use.

Failure to follow these warnings could result in serious injury.

CAUTION !!!

Purpose

- Do not use this unit except for original application
- This unit is for household use. Do not use it for wholesale.
- This unit is for indoor use. Do not use it outside.

Assembly

- Assembling with 2 or more people is recommended
- Please assemble at a spacious and flat place
- Please place blankets or cardboard so floor or walls will not be scratched
- Please ventilate the area if there is strong glue odor after opening the product
- Please follow assembly instructions

Placing The Unit

- Store the unit on a flat surface.
- Place a mat under the unit if you place it on wood floors for floor protection
- Do not place the unit in areas where conditions are extreme, such as direct sun or a humid place
- Do not place the unit in a hot or humid area, such as near the heater or fireplace

Usage

- Please check your surroundings when you use this unit
- Do not place any hot or wet objects on the unit
- Remove all objects on the unit when you move it
- Do not leave water or wet objects on the surface.
- Do not use it for toys
- Do not stand on it or use it for a step stool.
- Do not overload only the top drawers. Load the same amount to help prevent tipping of the unit.
- Do not leave drawers open or put pressure on opened drawers to help prevent falling or wrecking.
- Do not stand or put pressure on opened drawers.
- Colors could fade
- Please open drawers slowly
- Make sure you do not catch your finger when you use the drawer.
- Weight Capacity Top insert: About **30KG**, Shelf insert: About **10KG**,
※ These are measured figures, not guaranteed figures

Cleaning

- Please check all assembled parts are tight regularly. (About once a month)
- Use dry soft cloths for dust and spots
- For heavy spots, use clothes with neutral detergent then dry in a well ventilated area.
- Do not use if any parts are broken.
- Please recycle the unit or its package depending on your city rules.

ANTI-TIP DEVICE INSTALLATION INSTRUCTION

IMPORTANT SAFETY INSTRUCTIONS

Read and follow all instructions when using the range to prevent the risk of personal injury or damage. This guide does not cover all possible conditions that may occur. Always contact your service agent or manufacturer about problems that you do not understand.

This is the safety alert symbol. This symbol alerts you to potential hazards that can result in property damage and/or serious bodily harm or death. All safety messages will follow the safety alert symbol and either the word **WARNING** or **CAUTION**. These words means:

WARNING - Indicates a hazardous situation which, if not avoided, could result in death or serious injury.

CAUTION - Indicates a hazardous situation which, if not avoided, could result in minor or moderate injury.

ANTI-TIP DEVICE

1 WARNING

- **TO REDUCE THE RISK OF TIPPING, THE APPLIANCE MUST BE SECURED BY A PROPERLY INSTALLED ANTI-TIP DEVICE, TO CHECK IF THE DEVICE IS INSTALLED PROPERLY, VERIFY THAT ANTI DEVICE IS ENGAGED, OR GRASP THE TOP REAR EDGE OF THE RANGE BACK GROUND AND CAREFULLY ATTEMPTED TO TILT IT FORWARD.** Refer to the installation section for instructions.
- A child or adult can tip the range and be killed.
- Install the anti-tip device to the structure and/or the range. Verify the anti-tip device has been properly installed and engaged following the instructions on the anti-tip bracket template.
- Engage the range to the anti-tip device following the instructions on the anti-tip bracket template. Ensure the anti-tip device is re-engaged when the range is moved by following the instruction on the anti-tip bracket template.
- Re-engage the anti-tip device if the range is moved. Do not operate the range without the anti-tip device in place and engaged.
- See installation instruction for details.
- Failure to do so can results in death or serious injury to children or adults.
- Never remove the dresser/chest of drawer legs. The range will not be secured to the anti-tip bracket if the legs are removed.
- Do not step or sit on drawers. The range could be tipped and injury might result.
- Do not rest large heavy items on the open drawer. The range could tip forward and cause injury.
- Re-engage the anti-tip device after pulling the range out for moving or any other reason.
- Failure to follow these instructions can result in serious injury or death to children or adults.

Installation Instruction :

A tip restraint must be attached to a wall stud using the 2" screw enclosed.

1. Attach a strap to the back top rail or back top edge of the furniture using the 5/8" screw provided.
2. Locate the strap on the wall over a wall stud and 2 inches below the mounting strap secured to the back of your unit. Attach to the wall stud using the 2" screw provided, through the smaller hole.
3. Place the furniture into position so both mounting strap are vertically in line.
4. Lace the end of the restraint strap through the larger hole in each mounting strap. Bring both ends together and slide the flat end through the locking end and draw it through until all slack is removed.
5. Confirm that the strap is securely laced and locked.

Part Include :

WALL FIXING GUIDE

NOTE: Supplied wall plugs are only suitable for use in masonry walls.

If you have any doubts about using the correct plug for your wall, please seek professional advice. Failure of the product due to using the incorrect fixings is the responsibility of the installer.

IMPORTANT:

When drilling into walls, always check for hidden wires or pipes, etc.

Tips & Tricks

Make sure that the hardware used is suitable for supporting your unit.

Please consult a qualified tradesperson if unsure.

- ✓ If you are unsure, please select a larger screw and wall plug.
- ✓ Ensure that you use the recommended drill bit to match the wall plug and hole size.
- ✓ Take extra care when drilling high walls, ceiling and ceramic tiles. Ensure wall plugs are inserted beyond the thickness of the ceramic tiles to avoid splitting or cracking.
- ✓ Ensure that wall plugs are well fitted and are a tight fit in the drilled hole.

Types of Walls

Use one of the following types of wall plug (not included) if your walls are made of brick, breeze block, concrete, stone or wood. Screws may be able to be fixed directly to solid wood walls as they will provide a secure anchor point.

1. General Purpose Wall Plug

Generally, aerated blocks should not be used to support heavy loads, use a specialist fitting in this case. For light loads, general purpose wall plugs can be used.

2. Plasterboard Wall Plug

For use when attaching light loads onto plasterboard partitions.

3. Cavity Fixing Wall Plug

For use with plasterboard partitions or hollow wooden doors.

4. Cavity Fixing Heavy Duty Wall Plug

For use when fitting or supporting heavy loads such as shelving and wall cabinets.

5. Hammer Fixing Wall Plug

For use with concrete block or brick walls, or walls stuck with plasterboard. The hammer fixing allows it to be fixed to the wall rather than the plasterboard. Always check the fixing is secure to the retaining wall.

6. Shield Anchor Wall Plug Heavy Loads

For use with concrete or brick walls, or for use with heavier loads such as TV & WIFI speakers and satellite dishes, etc.
