

ALL-IN-ONE CLEANER,  
PROTECTOR & POLISH...

# MAXWAX®

**CLEANS WHILE IT SHINES**

✓ WOOD ✓ LEATHER ✓ PLASTIC ✓ METAL ✓ GRANITE

A unique blend of food grade waxes taken up in a mild, deodorised organic carrier. The formulation is specifically designed to penetrate porous surfaces (such as wood), whilst leaving a thin wax film on the surface. This not only nourishes the wood like an oil, but can be buffed up to a healthy sheen. Being a very hard formulation, **Maxwax** will not collect dust or leave finger marks as other softer and more sticky waxes can.

BBQ CLEANER

MAINTAINING TOOLS

## HERE'S JUST A FEW OF THE MANY USEFUL WAYS MAXWAX CAN BE USED IN AND AROUND YOUR HOME AND OFFICE...

- ▶ As a furniture polish for all wooden articles (natural, waxed, oiled or lacquered).
- ▶ As a protective coating for outdoor furniture.
- ▶ On raw wood to develop natural grain and colour.
- ▶ On your BBQ non-cook surfaces to remove fat splatter and leave surfaces clean and bright.
- ▶ For granite, stone and terrazzo surfaces.
- ▶ Leather bags, shoes, briefcases, jackets, saddles, etc. **Maxwax** may darken some colours - test a small area prior to use.
- ▶ For hard surface car interiors and exteriors (doesn't collect dust like silicones).
- ▶ Most plastics: stereos, TV, etc.
- ▶ Revives anodized window frames that have 'chalked'.
- ▶ As a wax coating to prevent tarnish of copper, brasses and silver.
- ▶ A coating to revive and protect tool surfaces (saw blades, etc).
- ▶ An ideal gift for someone you really care for!
